

3M™ Detection System (Model 8900)

Enhanced security coverage with style and versatility

The 3M™ Detection System Model 8900 combines flexibility and style with state-of-the-art technology to provide excellent detection and reliable performance. The system is available in a variety of finishes to match your library's decor. Compliant with

DDA requirements, the Model 8900 has a variety of flexible mounting options - direct mount, base plate or buried cable.

Excellent Detection Performance

- Utilises the latest RFID technology to provide enhanced detection performance
- Adjustable audio and visual alarms
- Integrated patron counter to monitor your traffic patterns

Attractive Design

- Slim, elegant pedestal design allows for excellent visibility of patron in corridor
- Available with the same wood laminate finishes as the 3M™ SelfCheck™ System products to enhance decor matching capabilities
- Neutral finish options also available

Mounting Options

- Direct mount, base plate or buried cable
- Fits in to a variety of floor plans
- Corridor width complies with DDA requirements

The following specifications are for the Model 8900 single-corridor with baseplate
