

# 3M™ Tattle-Tape™ Security Strips & Applicators

- Ⓐ **Tattle-Tape™ Security Strips DCD-2** These precision balanced strips are designed for CDs and CD-ROMs. The easy, one-step application process integrates two strips into a clear film overlay that prevents removal and protects the surface of the disc. Strips will not affect performance.
- Ⓑ **Tattle-Tape™ Security Strips B2** Ultra-thin, double-sided strips are designed to be applied between pages of books and periodicals. The extra-long liner makes it easier to insert the strip deeply into the gutter, making it virtually undetectable.
- Ⓒ **Tattle-Tape™ Security Strips B1** Single-sided strips are designed for hardcover books. Strips can be easily inserted into book spines with a bayonet either on a countertop or right in the stacks. Strips are completely concealed.
- Ⓓ **Tattle-Tape™ Security Strip R2** Applied with the Tattle-Tape™ Application System, these strips are in roll format with no liners to remove. They're automatically dispensed and can be applied to print materials five times faster than traditional strips.

- Ⓔ **Tattle-Tape™ Application System** With this device, you can apply Tattle-Tape™ Security Strips to print materials three to five times faster than applying the strips by hand. Use it in the stacks or behind the scenes.
- Ⓕ **Tattle-Tape™ Security Strips DVM-1** These strips are designed for unboxed videocassettes. Strips are hidden by a cover-up label that can be printed with a title or other information.
- Ⓖ **Tattle-Tape™ Security Strips DAC-1** These strips are designed for unboxed audiocassettes. Strips are hidden by a cover-up label that can be printed with a title or other information.
